

1. I have once farming after my engineering . I had moved to village with my family since my dad had retired and could not get job at that period of time. So either had to pursue higher study for which finance was big problem since dad had retired but i took risk and helped my father in farming and that was kind of risk y for my designation since i had engineering background study and would shy as what other would think but i did it without much thinking on it and it helped financially.
2. I would choose money as money eventually brings power as any work done in this world requires money and without which it is not possible to do a single step. Money has vital role in our life to sustain in this world and without it there is frankly no power. Money can command people and power without finance wont work in real life practically.
3. I am more spontaneous and then later calculate the risk and time if i find the work difficult. It is important to be calculative and as well as spontaneous in current market situation.
4. I prefer perfection over speed as i find quality work is more important than just speed.
5. The course name is more important than just institute name as institute can provide you placement but skills will take to next level in your career.
6. I am passionate of helping animals and needy person as life is temporary but your deeds are immortal.
7. I get angry when i see someone commits crime like murder, rape whose seriously affect the victim life.
8. I normally do not lose patience easily but sometimes does when i run out of time for particular work.
9. When a truck passed just to my dog i was intimidated.
10. I had once selfdoubt when my teacher told me to present a play in front of class but i calmed myself and overcame it.
11. He once said that i cant play sports and would only be book worm and guess what i proved him wrong and won man of the match in cricket.
12. I have learned to work hard, have patience and always believe in yourself. These 3 things would lead to a successful life.
13. I would leave the touch sense as i feel other senses are more important to leave at least a working life.
14. If i am in bad mood then i would prefer people to leave me alone as it helps me to understand myself and internally guide me to how to overcome my bad mood.
15. I would be honest to do what i like to do and do farming, singing , dancing and much more and would leave a wonderful life for ever!
